RE: Division directive to reclaim, JG Resources LLC, Aetna mine, S/021/0009 Iron County, Utah

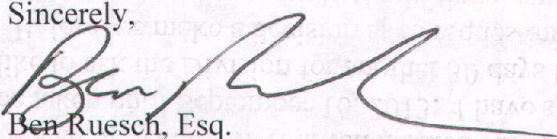

Dear Mr. Baker,

We are in receipt of your letter dated July 31, 2013, wherein you stated no agency action would be taken until September 16, 2013. I have spoken with my client and at this time, we would like to ask the Division for another 30 days before any agency action is taken on this matter. Before we make a decision as to requesting release of the surety, we need additional information regarding the amount of additional surety from 2012 to the current date. When I spoke with you on the phone on August 26, 2013, you did a quick, rough-estimate calculation that the surety amount would increase another \$6,000.00-\$8,000.00. Will you please confirm the amount additional surety that would be required, should my client not wish to ask for release of the existing surety?

Additionally, my client is in the process of finishing a closing that would make funds available for production, as contemplated in the lease with SITLA, in conjunction with an existing off-site grandfathered mill refinery. For these reasons, we request additional time (i.e., another 30 days) before any agency action is taken.

Let me know if you have any questions or need additional information.

Sincerely,

Ben Ruesch, Esq.
